

Waterfall Card with 2" Squares 1

This card does not use a traditional card base although you can mount the flip mechanism onto one if you so choose.

Cardbase: 4 ¼" x 5 ½"

Mat: 4" x 5 ¼"

Holding Strip: ¾" x 4" with 1" x 4" mat

Squares: 4 - 2" x 2" cardstock squares
4 - 1 ⅞" x 1 ⅞" basic white squares for stamping or DSP

Flipping Mechanism: 2" X 9 ¼" piece of cardstock scored on the long side at: 2", 2 ¾", 3 ½", & 4 ¼"

Fold along all the score lines of the flipping mechanism making sure they are well burnished.

Fold the flipping mechanism along the 4 ¼" score line. The short side should be on top. You can use a tag topper to punch the long piece of the mechanism.

Glue mat to cardbase.

Glue the two holding strip pieces together. Mat on top of the base piece.

Center the folded flipping mechanism onto the front of card and hold into place. DO NOT GLUE. Remember the short piece should be on top.

Place the holding strip inbetween the front and back of the flipping mechanism, lining up the bottom edge of the front piece with the bottom edge of the holding strip. (see Figure 1)

Waterfall Card with 2" Squares 2

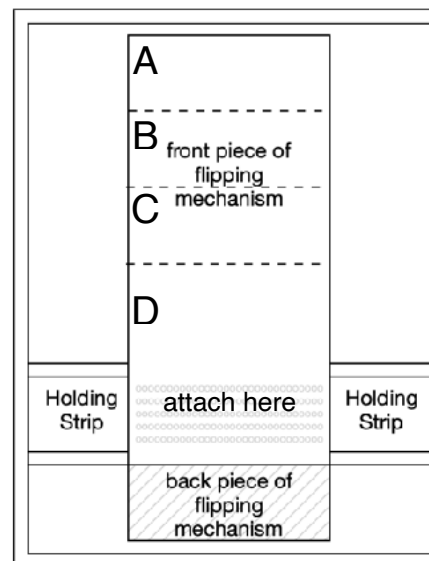

Figure 1

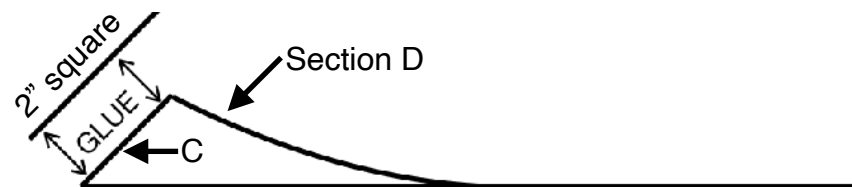

Glue the Holding strip onto the card base on both sides where you see the words "holding strip" in figure 1. Do not glue all the way across.

Making sure the flipping mechanism is still in place glue just the bottom of the front piece of the flipping mechanism to the holding strip.

The only place that the flipping mechanism is attached to the card is on the holding strip and only by the front flap of the flipping mechanism. The back piece should be completely free.

Now you can attach the 4 - 2" squares to the flipping mechanism. The first one glues flat to section D.

Pull on the back of the flipping mechanism so that each ¾" section folds behind the mechanism until section C is standing up forming a triangle. Glue a 2" square to section C being sure not to glue on top of the score lines.

Push the back of the flipping mechanism back up towards the card base so that Section B forms a triangle and glue a 2" square to section B. Repeat for section A.

Waterfall Card with 2" Squares 3
