

Portrait A2 Infinity Card 1

Cut and score two pieces of card stock according to the measurements shown. They are marked A & B.

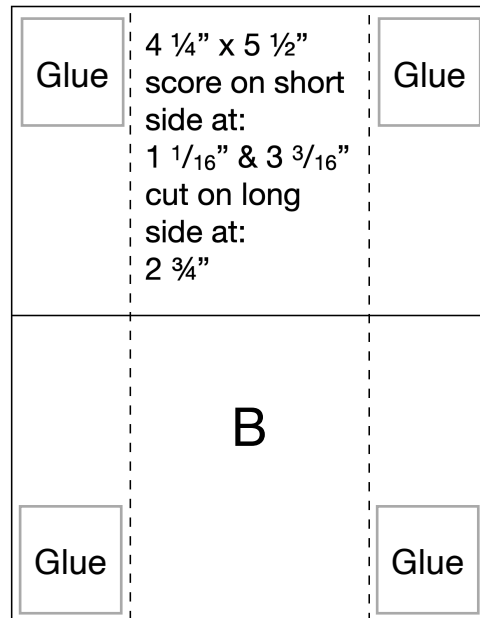

You will end up with 4 pieces once you cut, but treat them like they are still connected for the gluing part

Put glue in the four corners as shown on the B piece. Place the other two A strips on top being careful not to overlap any of the sections.

Hold in place until the glue dries and is secure.

Carefully fold and burnish the score lines using the folding pattern on the next page.

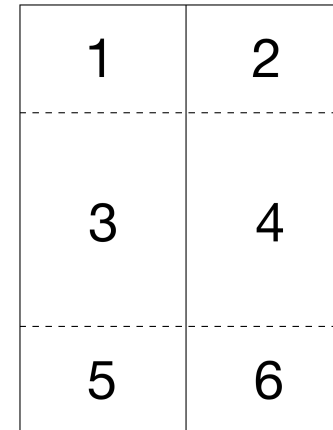

If you find sides getting caught as you fold, check the edges and trim excess that doesn't line up.

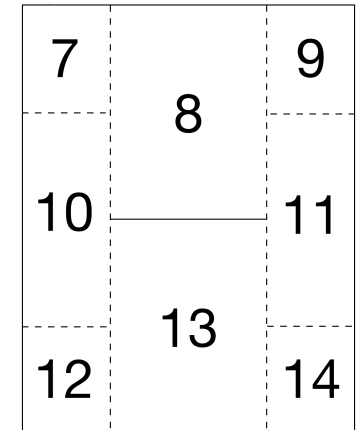

Portrait A2 Infinity Card 2

Always fold out from the center solid line.
