Tier 1

The tabs on each tier should be glued to the card base so that the centers line up. Start with Tier 3, next glue Tier 2 and finally glue Tier 1. Be sure that all the centers align and it is helpful to close the card after glueing each tier to make sure the card closes.

Note: If you are using thinner cardstock, Tier 1 may not reach the edge of the card. This is ok.

Butterfly Balcony Card 1

I only glue the center of each butterfly so that the wings can float above the paper.
