Scrap DSP Card

This card works in landscape as well as portrait.

I used these cards in my April '22 card class and 3 of the punches were discontinued at the end of April but any punch will do.

To create the shadow effect punch two shapes, one in basic white to stamp on and one in a coordinating color of cardstock. Cut the one for the shadow in half and glue the two pieces on the back of the white one after you have stamped on it.

Scrap DSP Card

I used these cards in my April '22 card class and 3 of the punches were discontinued at the end of April, but this card is not dependent on any given punch. It lends it self to use all sorts of shapes and sizes.
