Folding Instructions:

5/8" You can make a folding template by cutting a 4 ¼" X 5 ½" piece of tag board or just mark the front of the card base and fold.

Make a mark at 5/8" from the top left corner and another 1 ¾" up from the bottom right corner.

If making a template: cut the corner off between the two marks and use on top of a card base to know where to fold.

← 1 ¾"

If marking directly on the card base: Use a straight edge lined up at the two marks and fold the corner down along the diagonal line made by the straight edge.
