

## Circle Cut Z Fold Card

Center the 2nd largest circle die cut from the layering circles set along the  $2 \frac{1}{8}$ " score line and use washi tape to hold in place.

To die cut, be sure the edge of the top plate lines up with the  $2 \frac{1}{8}$ " score on the side with the solid line of the circle in the picture above. This ensures that only the left side of the circle is diecut and the dotted half of the circle is not cut or scored at all.

NOTE: If you want to diecut your DSP at the same time be sure to glue it only on the top and bottom edge so that you can remove the half circle after diecutting.

Die Cut a smaller circle or one of the new stitched circle die cuts to mount on the circle part of the cardbase to cover up the score line.

Fold the left side of the card base back on itself along the score line.
