

## Peek Through Circle Card 1

Portrait A2 Card Base  
5 1/2" x 8 1/2"  
scored on the long  
side at 4 1/4"

Designer Series  
Paper: 4" x 5 1/4"

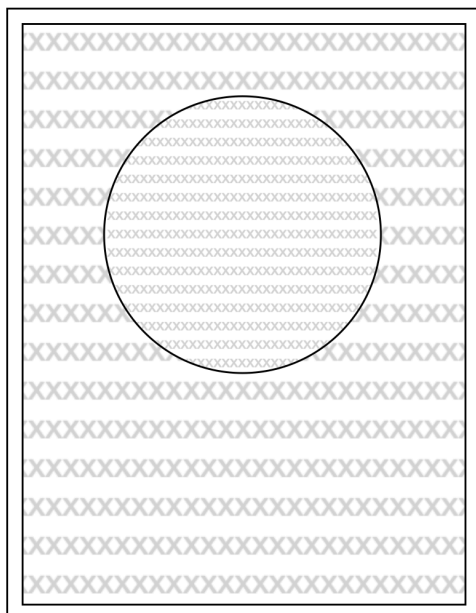

Attach DSP to the  
front of the card base  
before die cutting the  
circle from the front of  
the card base.

(Note: open your card base  
before cutting so that you  
are only cutting the front of  
the card.)

After Die cutting the  
circle, close your card  
and glue the circle to  
the inside of the card  
base using the hole in  
the front of the card to  
line it up.

(Note: Be careful to line up  
your DSP so that the pattern  
matches.)

Stamp your sentiment  
and attach it to the  
center and attach any  
other decorative die  
cuts.

### Note:

I used the 5th largest circle from the Stylish Shapes die cut set for this card, but the 6th largest circle in the layering circle die cut set is a similar size. Of course any basic shape would work well for a peek through card.
