

Folded Kite Card 1

I mounted the Kite Card Base onto cardstock cut at 4 1/4" X 5 1/2"

I used a piece of DSP 4" X 5 1/4" to decorate the cardstock

I used my Cricut to cut the Kite Card Base but I scored it on my score board.

I have provided a cutting template for those without a cutting machine.

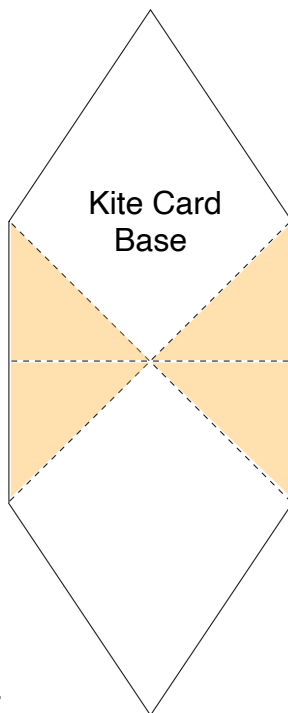

The templates can be downloaded from the same blog entry that this instruction sheet was downloaded from (stampwithtlc.com) Blog entry date: 3/31/23

I also used my Cricut to cut the DSP and the Basic White to go on the inside of the Kite. These cutting templates are also included with the Kite Card Base cutting template.

Kite Card Base

Fold along all the score lines and fold the orange triangles towards the inside of the card as you fold the top Kite down to match the bottom Kite.

Mount the Kite Base to the 4 1/4" x 5 1/2" piece of cardstock. Decorate as you wish.
