**Note:** Only the sides of the insert piece are glued to the inside of the card base. Glue the right side first leaving an 1/8" margin on the top, bottom and right hand side of the insert.

Now Fold the insert so that the entire piece is flat. Put glue on the exposed back side of the insert and close the card base. This should align the piece correctly.

Make sure you glue the 1/2" pieces and attach the fishing line before adhering the insert.
