

Triple Diamond Butterfly Card 1

Blackberry Bliss Card base:

Cut 2: 5 1/2" x 8 1/2"

score on long side at: 2 1/8", 4 1/4", & 6 3/8"

Use the diamond template to trim either edge of each half of the card base as shown. Note: You can wait and trim the card base til after you glue on the diamond shapes cut from the same color cardstock.

Cut 3 Diamonds using Template "A" from Blackberry Bliss Cardstock

Cut 3 Diamonds using Template "B" from DSP

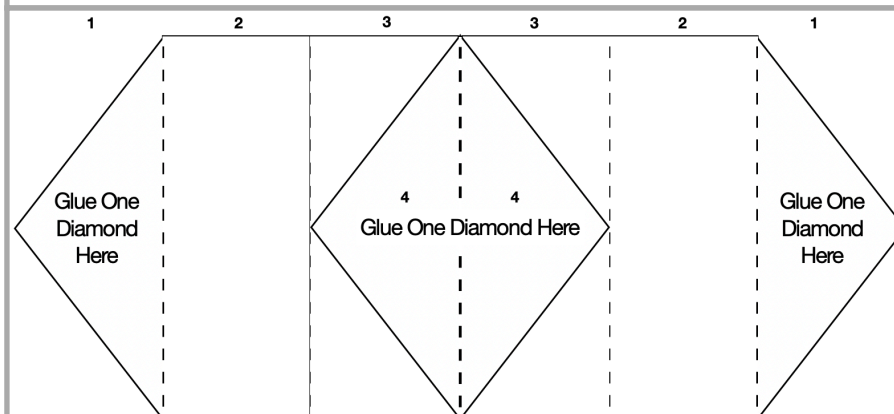

Note: I cut 2 diamonds out of one DSP and the middle one out of another pattern DSP.

Cut 6 pieces from Very Vanilla cardstock: 2" x 5 3/8"

Cut 6 pieces from Pretty Peacock cardstock: 1 7/8" x 5 1/4"

Note use any normal embossing folder to emboss the Pretty Peacock pieces (A 3D embossing folder might make the card too thick.)

Triple Diamond Butterfly Card 2

Take the two card bases and line them up next to each other with section 4 folded on top of section 3. Secure across the two section 4's with washi tape.

Now glue a Blackberry Bliss cardstock diamond on both ends labeled section one. The diamond will overlap onto section 2 but DO NOT Glue the diamond to section two. Only to section one. The diamond should line up along the score lines from top to bottom and the diamond should not extend into section 3 at all. If it does your card will not close properly.

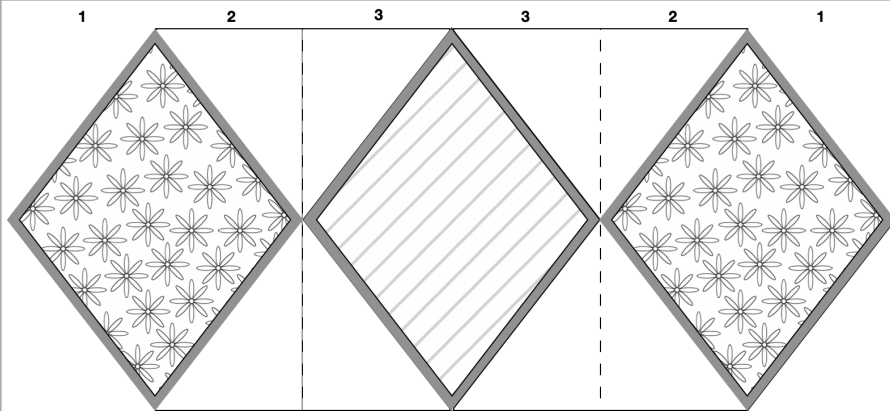

Now glue one diamond across the section 4's covering the washi tape. You will cover both section 4's with one diamond.

If you did not already trim the angles on the card bases, now is the time to do so. Just cut off the excess that extends past the diamonds you just glued on sections 1 and 4.

Glue the 6 Very Vanilla mats to both sides of Section 2 and only the front side of Section 3 (This is the section 3 underneath the middle diamond.)

Now Glue the 6 embossed pieces of Pretty Peacock to each Very Vanilla mat.

Triple Diamond Butterfly Card 3

Glue the DSP Diamonds to the centers of each of the cardstock diamonds.

Decorate as shown below or choose your own decorations.

Triple Diamond Butterfly Card 4

To close the card do the following.

Fold the diamonds on each end towards the back of Section 2 on each side. (This is why you decorated the back of Section 2 as well because it becomes the front of the card when folded.)

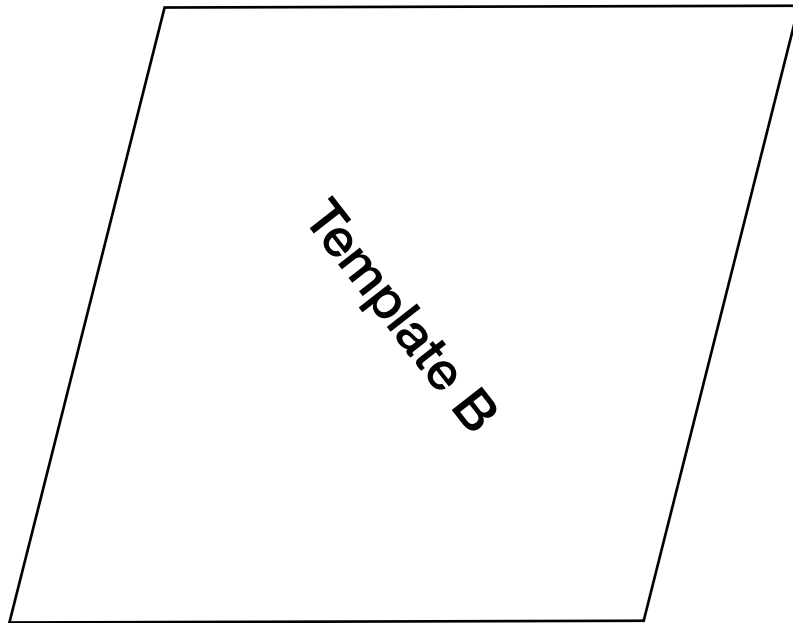

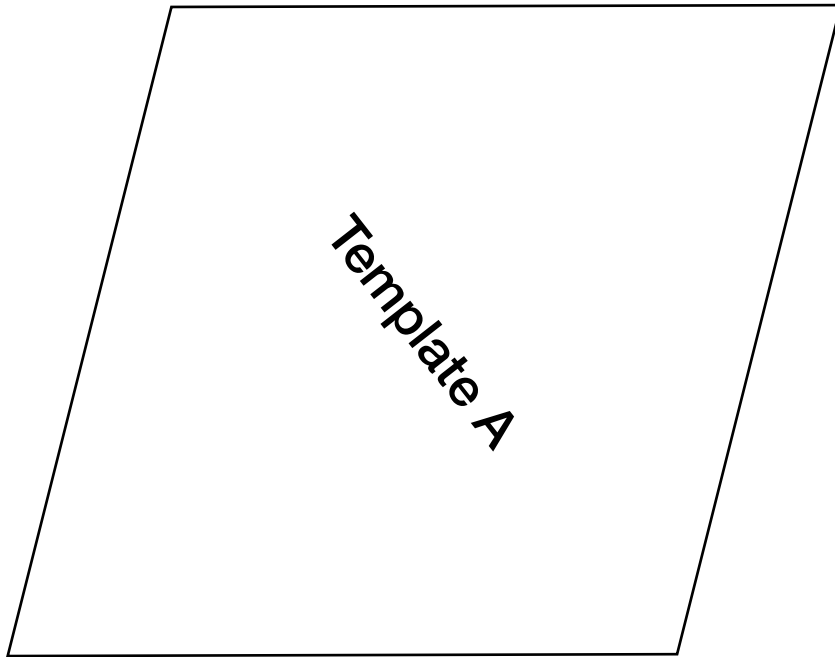

Press the center diamond so that it is flat against both section 3's.

Now fold the section two on the right on top of the middle diamond.

Now fold the section two on the left on top of the middle diamond.

All of the diamonds are now stacked on top of each other.

Triple Diamond Butterfly Card 5

Triple Diamond Butterfly Card 6

Product List

- [Perennial Lavender 12" X 12" \(30.5 X 30.5 Cm\) Designer Series Paper \[162593\] \\$12.50](#)
