

Hot Air Balloon Double Column Card 1

Afternoon Azure Card Base:
4 1/4" x 5 1/2"

Basic White for the Back: 4" x 5 1/4"

Afternoon Azure: 4 1/4" x 9 1/2" and scored as shown in picture below.

I used a 3 3/4" X 4 1/8" piece of contrasting cardstock to decorate the center section column piece. I diecut this piece with a larger deckled circle die cut than I used for my column piece. Now glue this piece to the center of the column piece

Die Cut a window in the middle of the 4 1/4" x 9 1/2" piece. My die cuts were actually too wide and the columns showed through the window. I covered this mistake by glueing two balloons on top of the part that showed through.

To avoid my mistake, make sure your diecut window is centered and not bigger than 2 1/2" wide. You can make it as tall at 3 1/4".

Glue a Window Sheet to the back of the window to cover your diecut window. Mine measured 3 1/4" X 3 1/4".

Hot Air Balloon Double Column Card 2

Fold on all the score lines and shape it into a column that is behind the part you die cut. Glue the tab marked "Glue" to the back. Do this for each side. Below is a top down view of the columns glued to the card base.

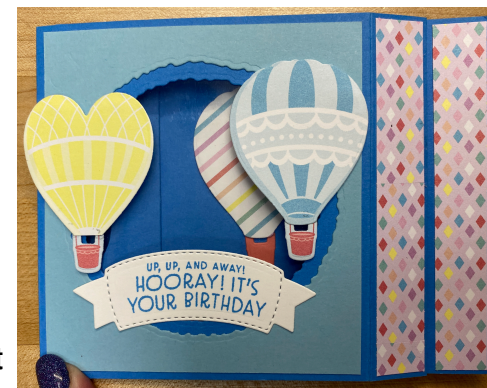

Fig A

Once the columns are made it is ready to be glued to the card base. You will need to glue decorations to card base before glueing the column piece on top.

To glue the columns to the center of the card base, fold both columns towards the same direction.

My finger is pointing to the edge of the card base and I have lined up the edge of window section to match it. Both of the columns are flat and folded towards the right hand side of the card. In this picture the side of the column is decorated with DSP and so it the right hand side of the card base.

With the columns folded, put glue on the sections of each column that will be glued to the card base and glue it in place by matching the edges on the left as in the picture above.

When the glue dries it should pop up as in Figure A above.

Decorate each side of the column and the empty sides of the card base with DSP cut 5/8" x 4 1/8" (4 pieces total).

Hot Air Balloon Double Column Card 1

The sample is decorated with Balloons die cut from the Light as Air Designer Series Paper using the Hot Air Balloon Dies.

The stamps came from the coordinating Hot Air Balloon Stamp set. See product listing for colors used.
