Submarine Pop Up Card 2

Cardbase:

Fold along all the score lines to prep them to make the box.

Section **A** is the tab that will be glued to the front of the card base to form the base box.

Fold over the **A & B** Sections along the score line between **B & C** so that they lay on top of section **C & D**.

Put glue on this side of section **A** so that when you fold during the next step it will adhere to section **E**.

Fold over Sections **C & D** together along the score line between **D & E** so that the **A** tab will be glued to section **E**. Section **D** is the bottom of the card.

Now Fold along the score line between sections **A & B** and press to close the column against the card. This should ensure that the **E** Tab is glued to the proper place.

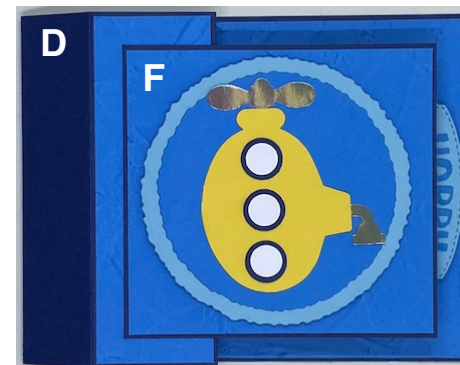

Add the embossed coordinating cardstock pieces to the cardbase before proceeding to the top box instructions:

Top Box:

Fold along all the score lines to prep them to make the box. Fold sections **H & G** behind Section **F** along the score line between **F & G**. Put a line of glue on section **H** so that it will adhere to section **E** of the Cardbase. Put another line of glue on the back of section **F** as indicated by the gray line in the sketch.

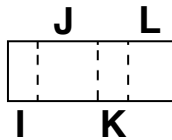

Place the top box on top of the folded cardbase (NOTE: When you fold the card base the bottom of the box will show as in the picture.

Glue coordinating cardstock pieces and decorate.

Submarine Pop Up Card 3

Pop up piece:

To make the sentiment die cut piece pop up with the card add this little section to the top of the box in the following way.

Fold along all the score lines.

Fold the card so that both the card base box and top box are fully open.

Put glue on section L of the pop up piece and fold both sections **K** & **L** behind **J** & **I**

Line up section **I** of the pop up piece on section **E** of the card base just coming near where the top box is attached to the card base and push down on the cardstock so that section **L** with the glue on it will adhere to the cardbase. Once the glue dries and it is secure, proceed with the next step.

Put glue on section **I** of the pop up piece and fold the card closed so that section **I** is glued to section **G** of the top box. Once the glue dries and section **I** is secure to section **G**, you can open the card and this tiny pop up piece is ready to hold your sentiment piece.
