

## Snow Globe Faux Shaker Card 1

Basic White Card Base: 5 1/2" x 8 1/2"  
scored on the long side at 4 1/4"

Pool Party 4 1/8" x 5 3/8"

DSP 4" x 5 1/4" die cut the snow globe

Glue the Pool Party to the Cardbase...**Do not glue**  
the DSP yet!

Glue the Base of the snow globe to the DSP, right at  
the edge of the opening.

Stamp a sentiment on the white snowflake and ink  
edges.

Glue Snowflake to the bottom right corner of the DSP  
with part of it hanging off. Trim off excess.

## Snow Globe Faux Shaker Card 2

1. Materials needed for the faux  
shaker.

2. Place adhesive backed  
pearls onto the snow  
globe piece.

Place the die cut inside  
the envelope in one of the  
corners and fold the  
envelope to the back and  
keep in place with tape.

3. Put shaker  
pieces in the bag  
on top of the die  
cut. Be careful to  
keep them in the  
center while taping  
the back.

4. Fold and tape  
the envelope on  
the back. Do not  
pull to tightly  
when taping.

## Snow Globe Faux Shaker Card 1

5. Tape the faux shaker piece on the back of the DSP so that it covers the hole.

6. Add Stampin' Dimensionals all around but not on the envelope or glue along the outside edge.

7. Now attach to the card front.  
OOPS: I forgot to glue on the snow globe base and snowflake.

## Snow Globe Faux Shaker Card 2

### Product List

- [Snowy Wonder Photopolymer Stamp Set \(English\) \[164334\]](#) \$20.00
- [Snowy Wonder Dies \[164124\]](#) \$31.00

- [Stampin' Dimensionals \[104430\]](#) \$4.25
- [Multipurpose Liquid Glue \[110755\]](#) \$6.00

**Note:** My original only has 3 pearls but for my next one I used four. Honestly 3 looks better, just be sure to place them far apart from one another to allow for the best movement for the loose snowflakes.
