

Poppin' Up to Say Hi Card 1

5" x 7" scored on the long side at 3 1/2"

DSP ? x 5"

Cardstock 1/4" x 5"

DSP: 1/2" x 5"

Glue the 1/4" strip of Cardstock to the back of the largest piece of DSP.

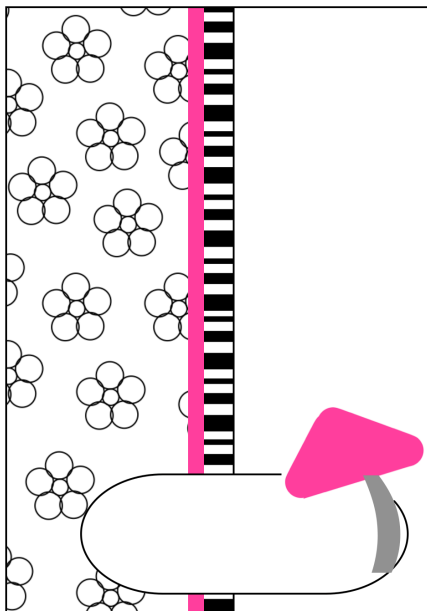

NOTE: I draw a thin line of glue along the left side of the cardstock strip and let it dry. Then I place the Larger piece of DSP on top of the glue so that half the strip shows.

Repeat this process to glue the Cardstock strip on top of the small DSP strip so that half the strip shows.

Stamp a sentiment on the basic white die cut piece.

Glue the mushroom top and stem together and then glue to the sentiment piece.

Optional: Place Stampin' Dimensionals on back of the sentiment piece and mushroom and attach to the card.

Poppin' Up to Say Hi Card 2
