

DSP Strip Card 1

Basic White
Card Base:
5 1/2" x 8 1/2"
scored on the
long side at 4 1/4"

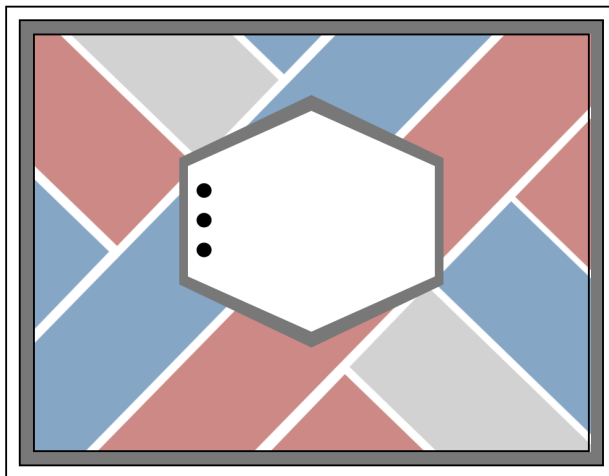

Pebbled Path
Mat: 4" x 5 1/4"

Basic White
Mat: 3 3/4" x 5"

DSP: 5 strips cut 1" x 6"

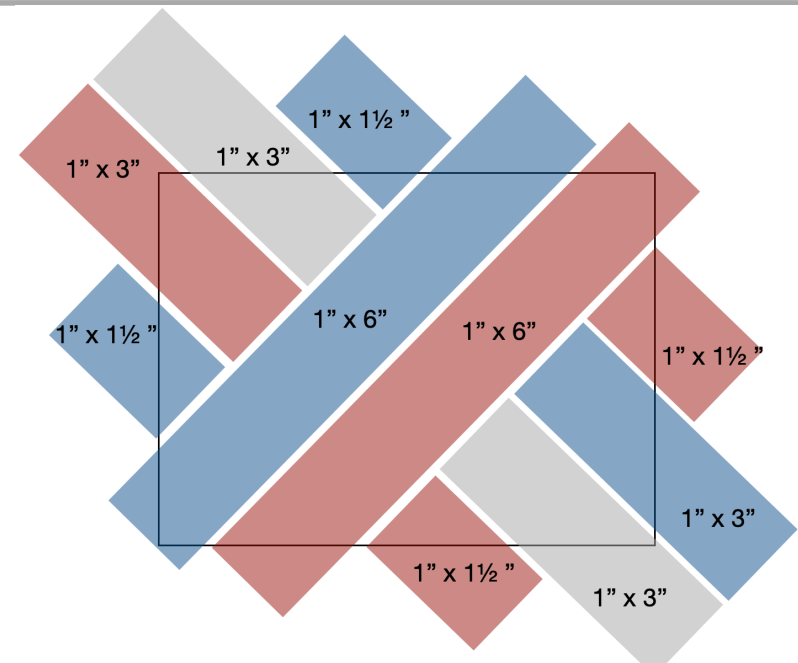

NOTE: If you look at the diagram on the next page, you will see that you technically only need 2 strips at 1" x 6" and then a bunch of smaller ones. You do not need to measure these exactly. For this card it is good to have them 1" wide but the technique we will be using is a gluing and then trimming technique that then uses the leftovers that you just trimmed off. The measurements are just for those who are interested.

Heartfelt
Hexagon
Punch:
1 in Basic White
1 in Pebbled
Path (cut this
one on the
diagonal and
place behind
the white as a
shadow.

DSP Strip Card 2

Step 1: Glue the two 1" x 6" pieces of DSP across the center of the Basic White Cardstock (3 3/4" x 5") Trim off excess DSP.

NOTE: The Blue one covers one corner and then shifts to the left of the opposite corner. It will not fit directly in the center and cover both corners.

Step 2: Glue more strips to fill in the rest of the white space. Trim off the excess DSP to keep filling in the white space. After you trim a piece of DSP off one side, turn it around so that the straight edge is ready to be glued near the other pieces.

NOTE: I do leave a slight gutter between each piece like the mortar in between bricks.

Step 3: Glue this newly decorated piece to the mat and then the card base.

Step 4: Stamp the sentiment and add shadow. Glue to card base (or use Stampin' Dimensionals.)
