Framed Card with Wings Card 2

Assembly Instructions:

- Fold the card base along all the score lines like you were folding a fan or zig zag shape
- Glue Secret Sea mats to all 6 sections. The 2" mats go in the two middle sections and the skinny mats fill the 2 sections on each end.
- Fold the ends of the pop up piece behind the middle section and glue just the 3/4" ends to the middle of the card base on top of the two 2" x 5 ⅜" secret sea mats.
- Glue the middle panel DSP to the Basic Beige pop up panel
- Use Stampin' Dimensionals or glue to adhere the Frame on top of the DSP piece
- Stamp the sentiment and mat with silver circle and attach to the corner of the frame as shown with glue (Note: just place glue where circle touches the frame)
- Glue silver flower to the bottom left edge of frame (Note: just place glue where the flower touches the frame)
- Attach the pop out panel to the pop up piece that is already glued to the card base. Do this by drawing a vertical line of glue down the center of the pop up piece and center the pop out panel on top. Press firmly and do not use so much glue that it squishes out onto the back of the card, essentially glueing it so it won't pop out.

Frame

Folding Instructions

Form a mountain fold with the two sections on either side of the Framed Section.

Tuck both these section behind the frame by creating a mountain fold with the center panels behind the frame.

Once the wings are tucked behind the frame, you can lay the frame flat.

To Display

Pull the two wings out from behind the frame and create valleys between each pair
