

Step Card Template

Start with a 5 1/2" x 8 1/2" piece of cardstock and score on the long side at 4 1/4" (This is a standard card base)

With this corner at the 2" mark along the top of your trimmer, cut the red line from the 1" mark to the 6 3/8" see figure 1

Turn your card base 90° counter clockwise so this corner is now at the 1" mark along the top of your trimmer and score from the top to the 3 1/2" mark. Repeat at each blue measurement see figure 2

Markings in yellow are just there to visualize measurements.
Do not cut or score on the yellow lines.
