Pretty Peacock Cardstock
Die cut **Dotted Square** from the **Poetic Petals Dies**

Cantaloupe Crisp Pearlized Specialty Paper
1 15/16" x 1 15/16" square
Die cut using the **three-bloom die** from the **Poetic Petals Dies**

Basic White Cardstock
Die cut sentiment piece using the **Sweet Words & Labels Dies**

Pretty Peacock Scraps
4 small pieces to cover the openings on the back of the sentiment piece, if using the same die cut as the sample.

Assembly Instructions

1. Fold Card Base

Fold the Pretty Peacock card base in half along the **4 ¼" score line**.

2. Add Large DSP

Glue the large DSP piece to the front of the card base, centering it as evenly as possible.

3. Layer the Triangles

Glue each DSP triangle onto a Pretty Peacock cardstock triangle.

- Keep the DSP as close to the center edge as possible.
- This will leave an even Pretty Peacock border around the outside.

4. Add Triangles to Card Front

Glue the two layered triangles to the card front as shown in the sample.

- One triangle goes in the **top-left corner**.
- One triangle goes in the **bottom-right corner**.
- The outside edge of each Pretty Peacock triangle should be **flush with the edge of the DSP** already on the card front.

5. Create the Flower Focal Point

Glue the Cantaloupe Crisp Pearlized three-bloom die cut onto the Pretty Peacock Dotted Square.

Attach to the card front using **Stampin' Dimensionals**.

6. Stamp Sentiment

Stamp the sentiment on the Basic White sentiment die cut.

Sample uses Pretty Peacock ink.

7. Cover Sentiment Openings

Turn the sentiment piece over and glue the four small Pretty Peacock scraps over the openings on the back.

8. Add Sentiment

Attach the sentiment piece to the card front using **Stampin' Dimensionals**.

9. Finish the Inside

Stamp a sentiment on the Basic White inside piece.

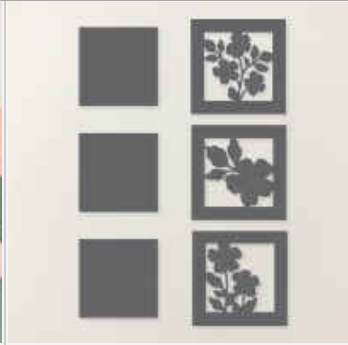

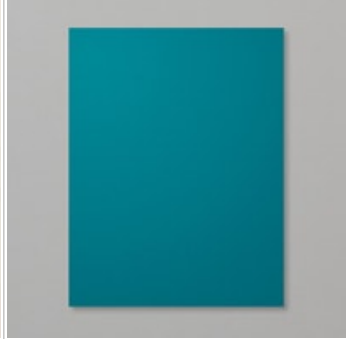

Glue the piece to the inside of the card.

Assembly Tip

Remember: When attaching the two corner triangles, the Pretty Peacock cardstock edges should line up flush with the edges of the DSP on the card front. This helps create the clean, balanced look shown on the sample.
